

# Christchurch City Council

## Electing the Mayor

---

---

### **Adrian-Cosmin SCHONBORN**

Independent

My principal place of residence is in the Christchurch City Council area.

#### **Making a difference**

I am standing for Mayor because, like all of us out there, I want to have a sustainable city with happy people, clean water, proper infrastructure, and clean housing for the one in need. Christchurch City and its people are part of me. I am profoundly hurt by seeing that this amazing city has bike lanes but not proper roads, gives away clean water but puts chlorine into our drinking water systems, supports different trusts but no mental support for our own. It is the time to make your vote count. We have had too many false promises and they keep on going. I would like to provide a different vision for Christchurch. We need young mindset to do it. Together we can make Christchurch City a most sustainable city where everyone would love to live.
