**Emma TWADDELL**

The Independent People's Voice

My principal place of residence is in the Innes Ward of the Papanui-Innes Community Board area.

Lifestyle changes supporting a sustainable future are urgently required.

Our ward requires infrastructure that compels us to live sustainably without feeling inconvenienced or overcharged.

Examples include, public transport becoming a preferred method of travel, streetscapes which encourage social interaction, low energy housing, local activities and safe streets to keep our children and older residents active and the development of healthy wetlands.

I have a proven record of facilitating positive community development, acknowledged with a New Zealander of the Year Local Hero Award in 2014.

Successful local projects include the St Albans Community Strategy, the community centre, St Albans News, the Can the Plan Campaign and the beautification of Edgeware Village.

Wife, mother, business owner, teacher, community activator. I understand advocacy, good governance and the oversight of operations. I want to see transparent decision-making as well as project budgets equalling the actuals.

Vote for me because our future is now.
