

Christchurch City Council
Innes Ward
Electing 1 Councillor

Mark WILSON

Independent Voice For Innes

My principal place of residence is in the Innes Ward area.

I am standing to be your Innes Council representative, to put community first, to rebuild and improve community facilities, to secure our water, and to do what's right for our children.

I'm passionate and proud to live within my community, after many years battling insurance, we were always going to stay and rebuild our home, I'm pleased we did.

For the last 18 months I've been actively involved in negotiating better outcomes for all communities affected directly and indirectly by the Northern Arterial Motorway. We continue to make significant community focused improvements within this project, 'move people not cars'.

Local facilities within Innes are inadequate. Why, eight years after community centers/libraries were demolished they still haven't been rebuilt? We need collaboration and action, not ineffectual consultation and red tape, to rebuild much needed community facilities, libraries, pools, upgraded playgrounds/parks.

I'm standing up for our community and its future.
