

Christchurch City Council
Spreydon Ward
Electing 1 Councillor

Scott ESDAILE

Independent

My principal place of residence is in the Spreydon Ward area.

Born and bred in Christchurch I'm a passionate advocate of this city. Public service runs in my blood - my great grandfather was former Prime Minister Richard Seddon. I believe actions speak louder than words and will act quickly when necessary. This led me to organise March to Save Our Water, attended by over 5000 people, and the Remembering Those That Lost Their Lives on March 15 vigil, which drew over 40,000 people. As a father to a young son, protecting our precious drinking water, ensuring it is there for future generations, remains an issue of importance. Working for a local roading company gives me a down to earth, practical hands on focus. I believe I bring to Council a young, fresh approach including strong communication skills, leadership, integrity, accountability and a great deal of positivity to take this city forward.
