

Christchurch City Council
Central Ward
Electing 1 Councillor

Jake MCLELLAN

Labour

My principal place of residence is in the Central Ward area.

It's been a privilege to serve central Christchurch on the Community Board. I've campaigned on traffic safety and city-planning - and got results.

I'm asking for your support to take the skills I've gained to Council.

I'm 27 years old. After moving to Christchurch from Invercargill as a child, I grew up, went to school and completed my degree here in Central. And recently I bought my first house here. I'm a proud Labour Party member so I want to make sure all residents of Christchurch get a fair crack at a good life.

My Labour colleagues and I are about getting the basics right.

We want our roads and footpaths fixed, a regeneration plan for Linwood, and we want changes made to protect our inner suburbs from poorly planned developments. Along with our ECan team we want to see water bottling under control.

Support us to get it done.
