

Christchurch City Council

Spreydon-Heathcote Ward

Electing 2 Councillors

Jeremy CALCROFT

Independent

My principal place of residence is in the Spreydon-Heathcote Ward area.

I am excited by the opportunity we have to create a world class city. However, I am increasingly concerned with the current council's ability to provide the leadership the city needs to take full advantage of this opportunity. I have a practical, common sense approach to working through issues and believe I can work with other council members to provide an effective, quality administration. I have experience in public service and as a people's advocate through my work as an Immigration Officer and as an Immigration Consultant.

I will work hard to ensure that promises for the rebuild of the city are delivered on, that there is support to assist homeowners and local businesses recover and move forward and that the council reflects the will of the people. I believe that the re-opening of Waltham Pool is also important for our community as well as maintaining our parks and waterways.
