

Christchurch City Council

Akaroa Subdivision of the Akaroa-Wairewa Community Board Electing 3 Board Members

Pam RICHARDSON

My principal place of residence is in the Akaroa Subdivision of the Akaroa-Wairewa Community Board area.

To be an effective Community Board member requires time and commitment to gain a clear understanding of the issues. Every Banks Peninsula bay is different and the range of community groups is incredibly varied. We all want to be involved in working groups etc while working closely with the Christchurch City Council and other agencies.

The earthquakes of 2010 have changed our lives. Slowly we are putting our special place back together again as well as seeing considerable new work on our water and sewer supplies etc. One of the challenges this coming term will be the Representation Review where the number of community boards for Banks Peninsula will be decided. It is important that we have a focus on our local issues and need to ensure that we have a vibrant Community Board with strong links to our community.
