9. Address: 23 Aynsley Tce. Opawa. ^{about 3ft}

10. How long have you been at this address? Since Feb. 1975

11. Name: R. E. James.

The Chief Engineer,
Christchurch Drainage Board,
Christchurch.

Dear Sir,

It seems strange to me that the Drainage Board is not considering tide control gates at the mouth of the estuary in preference to the proposed Woolston Cut.

Such a scheme would appear to me to be a lot less expensive than the Woolston Cut and would provide the estuary as a ponding area during flood time far in excess of the capacity of the cut, would be far less disruptive to the life of our community and far less damaging to the environment.

If such tide control gates are totally impossible, I would be grateful if you would advise me of the reasons.

Thanking you,
Yours faithfully,

P.S. Please note that the Opawa Methodist Church property was also effected by the floods, with about 1/3 of the section under water and the level of the water coming to within about 6-9" of going into the Church buildings, and about 12" in the 1975 flood.

Minister.

9/12/77

Dear Sir,

Surely in the meantime, definite moves could be made to keep the Sleathcote River free of weeds. In recent years this job appears to be one that's almost forgotten, so how about something positive being done about it otherwise the same flooding problems will still occur even if and when the proposed Woolston boat is made.

Yours faithfully
L. E. Knight

As a consequence of the flooding and the high probability of it continuing to reoccur I am elevating my house to a floor level approx 6" above the July 77 flood level.

I have removed my garage and made a portable 'jack up able' shed.

The good thing about the flood is the fertile silt left over the garden to a thickness of $\frac{1}{2}$ " - 1".

The cooperation of friends and neighbours during last flood was terrific. The insurance cover was good & there were no hassels.

To
The Secretary

The flood of '75 rose 18" in my section because the drain in Opawa School grounds was blocked. Who is responsible for this drain. The same happened in 1977. The only answer is flood gates at Kothcote Bridge. Not the roundabout. Then no more flooding would occur.

F. Jack

9. Address:

42 Ford Rd
Opawa.

10. How long have you been at this address?

We have lived here since Dec 1968. My parents & family ~~have~~ lived here from approx 1942. We bought the property from

11. Name:

My parents estate

My Lade

The July flood was 8 or 9 inches higher on my foundations than any previous one. The water was just lapping the floorboards of the house but went right through the garage & sleepout.

Apart from water in the section out main worry is all the streets sewage which flows out our drains. You can imagine the resultant mess which we usually clean up ourselves
