No.	Sub ID	First name	Last name	Organisation (if relevant)	Suburb	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
1.	11027	Christina Maree	Habinshuti		Hoon Hay	support the lighting	We whole heartedly support the lighting and seating for the basketball court. It would be WONDERFUL to see this court used more fully and safely. There are ALWAYS people of ALL ages playing at the courts. My 7 year old son's always welcomed and the 'big kids' are really great at letting him join in.  Yes! Yes! Yes! to lights	Thanks for your feedback
2.	10987	C D & W M	Loach		Hoon Hay	support the lighting	It is delightful seeing the young (and not so young) folk enjoying using this facility. Always a few there. A true asset for our community.  Would it be possible to encourage a group of young people to be 'unofficial' caretakers?	Thanks for your feedback  Council will continue to work with the youth involved in this project to encourage ongoing ownership and how to encourage the community to look after the park.
3.	10986	April	Hussey		Hoon Hay	support the lighting	This area of Hoon Hay Park experiences considerable challenges with respect of being the location of much antisocial behaviour and disregard for property, and with respect of being used both formally and informally by groups that do not seem to take the removal of rubbish seriously. For these reasons, I support the lighting of the basketball court as a mechanism to discourage undesirable behaviour and provide a safer place for young people to enjoy. I do not support the introduction of a shelter or BBQ, which will increase the areas attractiveness, whilst the Council are still struggling to manage an issue as basic as rubbish. I have made contact with the Council about the issue many times but it remains unresolved and seriously decreases the enjoyment that the public can get from the space.	Thanks for your feedback  Your concerns around rubbish were passed onto the Parks Maintenance team. An assessment has been made and two of the bins are to be relocated and an additional bin is being installed beside the basketball court as per the concept plan.

4.	10985	P & C	Gunderson		Hoon Hay	support the lighting	New Nets Can it be painted for other sports. Also?	Thanks for your feedback
5.	10925	Dougal	Blair			support the lighting	As long as it doesn't impact the people living across the street and doesn't turn on after 9pm I think it is a great idea. If the kids that requested this just wanted the lighting I would be more interested in that over any other options. I feel the world today is a much harder place than the one I grew up in and it is important for them to feel they are involved and have an influence on the community around them.. plus I know my rates get spent in a lot of frivolous and questionable areas - so if some kids down the street want to shoot hoops while the sun goes down I fully support that - especially if they were willing to fund raise for it - but I don't think they should have to - community based ideas such as this are far more important than stadiums, cathedrals or convention centres..	Thanks for your feedback.  A self-imposed curfew time for operating the lights will be implemented outside the hours of 1600 – 2100 via an automatic time clock setting and time delay switch. This will ensure the lights are not inadvertently left on by users or used outside these times.
6.	10912	Jordan	Brizzell		Hoon Hay	support the lighting		Thanks for your feedback.
7.	10910	Marlon	Smith			support the lighting		Thanks for your feedback.
8.	10909	Jessica	Gathercole		Hoon Hay	support the lighting		Thanks for your feedback.
9.	10908	Deb	Burn		Hoon Hay	support the lighting		Thanks for your feedback.
10.	10905	Helen	Lawrence		Hoon Hay	support the lighting	Barbeque probably not necessary as near lots of houses so I don't think it would get used too much. Whereas the basketball court is often used and improving that first would be good	Thanks for your feedback.
11.	10894	Agnetha	Korevaar		Hoon Hay	support the lighting		Thanks for your feedback.
12.	10868	Mr & Mrs	Pahau		Hoon Hay	support the lighting	We fully support the proposed upgrade for Hoon Hay park. The basketball court is utilised many times and just recently when a three day rugby league event was held young students and youth group workers camped overnight with spotlights on the court to act as security for the next big day. A bbq area would be utilised as many young groups also set up volleyball nets.	Thanks for your feedback.
13.	10867	Marie	Mitchell		Hoon Hay	support the lighting	This court is used by the Hoon Hay Youth every day. It is a positive thing for the young people. Being able to play later gives them time, after course or work to get rid of excess energy. It is better to have them playing than wandering the streets. The lighting would have little effect on the housing opposite. The ball bouncing is hardly going to warrant anyone complaining about the noise	Thanks for your feedback.
14.	10842	Mark	Daley		Hillmorton	support the lighting		Thanks for your feedback.
15.	10841	Julie & Cedric	Steffens		Hoon Hay	support the lighting	We are prepared to donate funds to this worthwhile project. The restriction on time is noted and agreed. The young group should sign an agreement to protect their facility to best of ability from vandalism	Thanks for your feedback.
16.	10840	Haidee	O'Malley		Hoon Hay	support the lighting	(About the park area):  The rubbish bin is always overflowing with rubbish on the ground as well  Need another rubbish bin or two or emptied more often  tagging on skate park is an eyesore and not appropriate for young people scootering/skating there.	Thanks for your feedback.  Your concerns around rubbish and skate park tagging were passed onto the Parks Maintenance team. An assessment has been made and two of the bins are to be relocated and an additional bin is being installed beside the basketball court as per the concept plan.
17.	10839	B	Baxter		Hoon Hay	support the lighting	As one for the few Palungi residents of the area, I'm worried this may become a Tonga fan zone or a place for anti-social youth behaviour. I think CCTV would be wise! I think the whole park needs to over go a 'make over' as the rest of the city modernises. It would be unfortunate for parts of town to be let to become rundown. Otherwise, great idea	Thanks for your feedback.  There has to be exceptional circumstances for Council to put CCTV cameras into parks. For the best solution to support safety and discourage antisocial behaviour it is important to consider Crime Prevention Through Environmental Design Principles (CPTED).
18.	10837	Cindy	Smithies			support the lighting		Thanks for your feedback.

19.	10834	Eric	Livingstone		Christchurch	support the lighting	Well used facility and important for local youth	Thanks for your feedback.
20.	10833	Paige	Forbes		Halswell	support the lighting	As a youth worker in the Hillmorton high school and the surrounding areas I would love to see the park become a safer more welcoming space for our young people. Majority of our boys (and some girls) love to hang out at the park shooting hoops and there is an amazing sense of community amongst them. I would be very keen to see lighting in the area to make it a more open and safe space. And the additions of bbqs, shelters and benches will create more of a space for families and groups to connect in what is somewhat the centre of the community.	Thanks for your feedback.
21.	10822	Jo'Anne	Fletcher		hoon hay	support the lighting		Thanks for your feedback.
22.	10820	Dirk	De Lu	Spokes Canterbury	Cracroft	support the lighting	<p>12 December 2017 RE: Hoon Hay Park SUBMISSION FROM SPOKES CANTERBURY</p> <p>Spokes Canterbury is a local cycling advocacy group with approximately 1,200 members that is affiliated with the national Cycling Advocates Network (CAN). All submissions are developed online and include members input. Spokes is dedicated to including cycling as an everyday form of transport in the greater Christchurch area.</p> <p>We would like the opportunity to appear at any public hearing that is held to consider submissions on these projects. Should there be an officers report or similar document(s) we would appreciate a copy(s).</p> <p>If you require further information or there are matters requiring clarification, please contact our Submissions Convenor Dirk De Lu in the first instance. His contact details are:</p> <p>Submission</p> <p>Spokes Canterbury applauds Council for meeting the needs of teens in our neighbourhoods. The local youth basketball league is a great effort.</p> <p>Please include safe secure cycle parking within clear sight and easy access to those using the courts. Well-lit cycle parking can easily encourage youth to cycle to practice.</p>	<p>Thanks for your feedback.</p> <p>The request for bike stands has been notes, however at this stage there is no funding available however will be considered in future budgets.</p>
23.	10814	Rob	McKenzie		Hoon Hay	support the lighting		Thanks for your feedback.
24.	10813	Bronwyn	Shaw		Hoon Hay	support the lighting	BBQ area will probably get vandalised so not my preferred option	<p>Thanks for your feedback.</p> <p>Council will continue to work with the youth involved in this project to encourage ongoing ownership and how to encourage the community to look after the park.</p>
25.	10812	Steve	Richardson		Hoon Hay	have some concerns about the lighting	<p>NB: Submitter checked '4' for all the above</p> <p>The courts get used quite a bit so if lighting encourages more use in winter that's a good thing. The concern is more use = more rubbish left behind and it's already not being regularly cleaned up so where's the budget for that?</p> <p>Shelter - this isn't Merivale. It's a lot of cost for little value and there is plenty of shade under the trees.</p> <p>Barbeque - it will be wrecked and left filthy - forget it.</p> <p>Court paint - for what purpose? The court is already marked and works well.</p> <p>Court seating - maybe, but shouldn't it be on the other side so the sun is on the spectators backs instead of in their eyes?</p> <p>If you want to spend money on the park, repair the pathway beside the Macrocarpa belt.</p>	<p>Thanks for your feedback.</p> <p>Your concerns around rubbish were passed onto the Parks Maintenance team. An assessment has been made and two of the bins are to be relocated and an additional bin is being installed beside the basketball court as per the concept plan.</p> <p>The BBQ cleaning is included in the Parks Maintenance contract. From May to October it would be clean twice monthly, November/December/January cleaned four times monthly and February/Marcy five times monthly and four times monthly in April. The BBQ also comes with a sterilisation cycle function which sterilises the hotplate before use.</p> <p>The request for painting the court has come from the youth and helps create a sense of ownership of the space.</p> <p>The path beside the macrocarpa belt is on Councils renewal list. Dependent on funding in the 2019 – 2029 Long Term Plan, it is expected the path will be renewed in financial year 2019.</p>

26.	10811	B D	Baker			support the lighting	The basketball court will certainly be used.  The barbeque will get stolen even though it will be electric. Some will use it but it won't be cleaned by those who use it that's for sure, so a diffinate "NO"	Thanks for your feedback.  The BBQ cleaning is included in the Parks Maintenance contract. From May to October it would be clean twice monthly, November/December/January cleaned four times monthly and February/Marcy five times monthly and four times monthly in April. The BBQ also comes with a sterilisation cycle function which sterilises the hotplate before use,
27.	10800	Mrs E A	Gordon		Hoon Hay		Good idea for the young community - however if Council is prepared to go to this expense - I FEEL CAMERAS SHOULD ALSO BE INCLUDED in the offset of vandalism	Thanks for your feedback.  There has to be exceptional circumstances for Council to put CCTV cameras into parks. For the best solution to support safety and discourage antisocial behaviour it is important to consider Crime Prevention Through Environmental Design Principles (CPTED).
28.	10799	Daniel	Eastwood		Hoon Hay	support the lighting	Make it happen!  Thanks!!  Rubbish is an issue - a tough one. But some cool rubbish bins or signs promoting looking after our communities???	Thanks for your feedback.  Your concerns around rubbish were passed onto the Parks Maintenance team. An assessment has been made and two of the bins are to be relocated and an additional bin is being installed beside the basketball court as per the concept plan. Council will continue to work with the youth involved in this project to encourage ongoing ownership and how to encourage the community to look after the park.
29.	10798	Tony	Rxoska		Hoon Hay	support the lighting	The only concern I have is for neighbours on Mathers Rd opposite the courts.  There would have to be a time when lights were on otherwise disruption to those living nearby with unwanted noise levels or 'undesirables' using on damaging facilities.  I think it's a great idea as many of the local youth enjoy using the courts. Maybe organisers can establish team - have a regular competition and oversee behaviour	Thanks for your feedback.  A self-imposed curfew time for operating the lights will be implemented outside the hours of 1600 – 2100 via an automatic time clock setting and time delay switch. This will ensure the lights are not inadvertently left on by users or used outside these times.  The youth with support from Council organise a 3 v 3 basketball competition every year (Hoon Hay Hoops)
30.	10797	Christopher	Bassett			support the lighting		Thanks for your feedback.
31.	10796	William	Tilson			support the lighting	Wondering who would clean and look after barbeque.  I think it's a good idea! It will lift the area up	Thanks for your feedback  The BBQ cleaning is included in the Parks Maintenance contract. From May to October it would be clean twice monthly, November/December/January cleaned four times monthly and February/Marcy five times monthly and four times monthly in April. The BBQ also comes with a sterilisation cycle function which sterilises the hotplate before use,
32.	10773	Allison	O'Neill			support the lighting	The young ppl of this community deserve this. They utilise this facility endlessly. I have witnessed the most beautiful community games of Bball here - mixed ages, genders & races - everyone is welcome & included	Thanks for your feedback
33.	10772	Sara	Somers		Hoon Hay	support the lighting		Thanks for your feedback
34.	10771	L	Chapman		Hoon Hay	support the lighting	NB: Submitter ticked all 3 above	Thanks for your feedback
35.	10770	Lois	Boulton			do not support the lighting	My concerns are:  1) Vandalism of the lights  2) Cost of funding lights  3) Question the need with daylight saving	Thanks for your feedback  The lights have been funded from Community Board funding, existing Council sports parks structures funding and a contribution from the local youth from fundraising activities. The additional activities will be included in future Long Term Plans.  The youth have requested lighting so they can continue to play basketball through winter.
36.	10769	Clare	Tehau		Hoon Hay	support the lighting	I write to support the proposed upgrades for Hoon Hay park. I have lived in the district since 1971. My children and now my grandchildren use the park. It is a well-used community asset and we should see that it is kept relevant for our young people and their families. Whenever I pass the park there are always children playing there.	Thanks for your feedback
37.	10758	Terrance	Broughton		Hoon Hay	support the lighting		Thanks for your feedback

38.	10749	Cherie	Roper		Hoon Hay	support the lighting		Thanks for your feedback
39.	10741	Frieda	Vlaardingerboek		Hoon Hay	support the lighting		Thanks for your feedback
40.	10740	Alan	Cappuccio			support the lighting		Thanks for your feedback
41.	10730				Hoon Hay	do not support the lighting	<p>The Rugby Park lighting next door is already WAY TOO BRIGHT 2 to 3 nights a week. I support 1 extra lighting for the basketball court, absolutely NOT 4.</p> <p>We get lots of rubbish thrown in the streets and over the fence into our yards whenever there is a big event or large crowds. A new shelter / BBQ plus platform seating will result in even more rubbish everywhere.</p> <p>Please keep my name &amp; contact details confidential. I already experience graffiti, vandalism &amp; lots of littering. Please do not make things worse for us. My elderly parents and I live here. Thank You</p>	<p>Thanks for your feedback</p> <p>The lights have been designed with the purpose of minimising the effect of light spill and based on calculations the lights will comply with the Christchurch District Plan.</p> <p>Your concerns around rubbish were passed onto the Parks Maintenance team. An assessment has been made and two of the bins are to be relocated and an additional bin is being installed beside the basketball court as per the concept plan.</p>
42.	10729	Jessica	Crowe		Hoon hay	support the lighting	Barbecue and shelter would be awesome	Thanks for your feedback
43.	10727	Sam	Rowland		Hoon Hay	support the lighting	The kids are out there playing together all the time. I get great joy walking or driving past and seeing them outdoors instead of inside! If you can give them everything in the options above I would support that. But I chose in priority order on what I think would suit them most (because you made me choose)	Thanks for your feedback
44.	10723	Wendy	Blaas		Christchurch	support the lighting		Thanks for your feedback
45.	10720	Christina	Tosh		Hoon Hay	support the lighting		Thanks for your feedback
46.	10718	Jordan	Haylock	Hillmorton High School	Christchurch	support the lighting	<p>If we could get some small speakers that hang off the lights which also has a timer like the lights.</p> <p>Kinda like the Dance-O-Mat in town. But a small version as we are in a residential area.</p> <p>100% back the young People pushing for this!! Let's see some progression in terms of development at the park and some pride put back in the youth in Rowley! (Hoon Hay)</p>	<p>Thanks for your feedback</p> <p>Your suggestion for music has been noted, however it would be more suitable for users to bring their own portable speakers etc.</p>
47.	10707	Tai	Taimataora	Suburbs Rfc	Hoon Hay	support the lighting	Also Toilet block needs to be upgraded or additional ones to be added.	<p>Thanks for your feedback</p> <p>There is no plan to renew the toilet block, however there is some funding that is available to complete some minor maintenance. This work needs to be balanced around other required work to parks buildings throughout the city, therefore timeframes and expected scope of works is TBC.</p>
48.	10697	Jill	Borland		Hoon Hay	support the lighting	<p>Fantastic for the community &amp; young people especially.</p> <p>Are the Council going to work with the community on the implementation of these projects to reduce costs and create community ownership?</p> <p>I have concerns over painting the courts due to issues over "colours" in our neighbourhood but if it is to be painted those 2 colours would be ok to demonstrate it doesn't "belong" to one group over another.</p>	<p>Thanks for your feedback</p> <p>Yes, the youth group have been working to fundraise money to contribute towards the cost of this project. Council will continue to work with the youth involved in this project, and such things as ongoing ownership of the space and how to encourage the community to look after the park will be discussed.</p> <p>The colours were suggested by the group as they are Suburbs RFC and Hillmorton colours.</p>
49.	10696	Lieue	Ielna		Hoon Hay	support the lighting		Thanks for your feedback
50.	10695	Pat	Agnew		Hoon Hay	support the lighting	A great initiative and the court is always full of young people when I am out walking my dog.	Thanks for your feedback
51.	10693	Ethel Anne	Mcdrury	POA for owner of 54		have some concerns	<p>Support the lighting because the proposal has in place, a timing device up to 9pm</p> <p>Should the lighting go ahead without the device - then we would oppose the proposal.</p>	Thanks for your feedback

				Tankerville Road		about the lighting		A self-imposed curfew time for operating the lights will be implemented outside the hours of 1600 – 2100 via an automatic time clock setting and time delay switch. This will ensure the lights are not inadvertently left on by users or used outside these times.
52.	10692	Hollie	Henderson		Hoon Hay	support the lighting	We believe investing in our area will increase engagement from the community. We have a lovely park and we should be proud of it and work together to make it enjoyable for everyone.	Thanks for your feedback
53.	10691	Richard	Morrison		Hoon HY	support the lighting	Brightening up this area is a wonderful idea. It is used all the time, I see them when walking my dogs, and it makes me happy to see them outside having a great time in the court. The park can get very dark after the sun goes down, so lighting up the area sounds ideal.	Thanks for your feedback
54.	10685	Rae	Lalahi		Hoon Hay	support the lighting	This is a great idea. Our household (3 adults & 2 pre-school children) use the park/playground a lot & would enjoy using this extra equipment a lot. We also meet up at park with local groups too so again this would aid this too! Exciting!	Thanks for your feedback
55.	10683	Iona	Harrison		Hoon Hay	support the lighting		Thanks for your feedback
56.	10675	Lolina	Avia		Hoon Hay	support the lighting	This is mainly around lighting for the basketball court so, that's how I've responded... In that order. To ensure the basketball court gets all the recognition it needs to succeed in its application.	Thanks for your feedback
57.	10672	Olivia	Webster		Hoon Hay	support the lighting	The basketball court is the most utilised part of the park after the playground. The local kids love it and it creates a community feel. Lighting would help keep that going.	Thanks for your feedback
58.	10671	Jeremy	Chee		Middleton	support the lighting		Thanks for your feedback
59.	10650	Lyndelle	Parr		Hoon Hay	support the lighting	<p>1. If a BBQ was to be installed would there be adequate rubbish bins placed around the propose area.</p> <p>2. How regularly would the area be cleaned as there is generally food rubbish left lying around, and with a BBQ in place I envisage more public activity in the designated areas. Not that this is a bad thing - I see it as a positive step for the community involvement.</p> <p>The park is wonderful for all the people who live around the area.</p>	<p>Thanks for your feedback</p> <p>Your concerns around rubbish were passed onto the Parks Maintenance team. An assessment has been made and two of the bins are to be relocated and an additional bin is being installed beside the basketball court as per the concept plan.</p> <p>The BBQ cleaning is included in the Parks Maintenance contract. From May to October it would be clean twice monthly, November/December/January cleaned four times monthly and February/Marcy five times monthly and four times monthly in April. The BBQ also comes with a sterilisation cycle function which sterilises the hotplate before use,</p>
60.	10649	Marta	Teklay		Hoon Hay	support the lighting		Thanks for your feedback
61.	10646	Anne & Barry	Sampson			support the lighting		Thanks for your feedback
62.	10645	Ya Dong	Zhang		Hoon Hay	support the lighting		Thanks for your feedback
63.	10644	Berry	Jill		Hoon Hay	have some concerns about the lighting	Lights need to be on a timer so that neighbours across from park are not disturbed to late in the evening - not everyone works 9 - 5 some may be shift workers.	<p>Thanks for your feedback</p> <p>A self-imposed curfew time for operating the lights will be implemented outside the hours of 1600 – 2100 via an automatic time clock setting and time delay switch. This will ensure the lights are not inadvertently left on by users or used outside these times.</p>
64.	10640	Timothy	Lalahi	MGS	Hoon Hay	support the lighting	<p>I think lighting is almost a must. It will make the courts a better place to hang out, it should work to reduce litter and graffiti.</p> <p>Seating would be excellent, make it more of a social area.</p>	Thanks for your feedback
65.	10635	Tiffany	Henderson		Upper Riccarton	support the lighting	As a child I grew up in hoon hay, we got sick of it being so boring and plain. when wanting to do a family picnic we couldn't as we didn't have appropriate shelter or barbeque facilities. I find the park a little to open especially if families take babies down with older children on windier days there is no where for the mother or family member with the infant to sit and feed or keep out of the cool breeze. As for the basketball court being painted and provided with seating I have seen many games played on the court and the teams struggle to see the proper lining causing confusion and agruements over the rules. It's good to provide seating so families can go and sit to watch the games as there is currently no where close enough for family to sit and enjoy and good game of basketball	Thanks for your feedback

66.	10611	Amelda	Lindsay		Hoon Hay	support the lighting		Thanks for your feedback
67.	10610	Viv	Homewood		Hoon Hoay	support the lighting	I think it's fantastic that the young people have taken the initiative to campaign to get lights for the Basketball court. The basketball court is always in use and always has lots of people there it is a great asset to the community and I would encourage the update of facilities.	Thanks for your feedback
68.	10609	Colin & Krystal	Bray			support the lighting		Thanks for your feedback
69.	10608	Carol	Kingsland		Hoon Hay	support the lighting	I think it admirable and responsible that the young people have approached the community board on this matter.  I support everything. A BBQ is excellent too to bring families together staying having fun in the community.  I do hope funding is achieved for all 4.	Thanks for your feedback
70.	10585	Temukisa	Tofilau			support the lighting		Thanks for your feedback
71.	10559	Simon	Pollock			support the lighting		Thanks for your feedback
72.	10479	Greg	Spence		Sydenham	support the lighting	The people who use these facilities (particularly the youth) are passionate about their local park & see it as the perfect space to engage with others in the community.	Thanks for your feedback
73.	10476	Campbell	Blaas		Christchurch	support the lighting	n/a	Thanks for your feedback
74.	10474	Lusia	Unasa-Piana		Hoon Hay	support the lighting	I support the suggested time for the lights to be turned on and off. There is a need for more parking spaces. The island on Mathers Rd across from the court can go, it does nothing but creates hazzard and risks for traffic and people/children crossing. I suggest a pedestrian crossing also. If there's going to be a barbecue, I suggest a gas bbq, families can bring their own gas bottle. The kids playground stays.  Comment regarding safety: On Friday 17th/18th November, a two-day community event was held, that island was in the way, the road suddenly became too narrow as a two-way traffic, vehicles were parked on the grass and people were struggling to cross the road and most concerning was safety of the children crossing or walking to/from vehicles.	Thanks for your feedback  Your concern around traffic and safety has been passed onto the Traffic Operations team.  The BBQ will be electric, as this involves less maintenance for Council.
75.	10469	Louise	Weller	Church Army NZ - Canterbury Kids Coach	Hoon Hay	support the lighting	Having lights on the basketball court will enable people to play in the evenings during the winter, and increase the security for this area. Having a place to sit is essential for parents with small children and older folk. We are very much in favour of this project.	Thanks for your feedback
76.	10467	William	Minish		Hoon Hay	support the lighting	I fully support this proposal and think it will be good for the community. I have another concern related to the park, I have noticed that when there are sports days and events at the park this blocks up Mathers road and causes bad traffic jams and makes the road unsafe for cyclists. This is due to the parking along both sides of the road narrowing the road too much. As there is also a bus route along the park this makes the problem worse, last Friday I encountered a bad traffic jam in that area when a bus and ute were unable to pass each other on this road. To correct this I would suggest widening the road as there is an extra wide curb across from the park or making the sections of the road immediately across from the parking on the Hoon Hay park side into a no parking zone.	Thanks for your feedback  Your concern around traffic and safety has been passed onto the Traffic Operations team.
77.	10465	Mohammad	Safi		Hoonhay	support the lighting	I'm myself a basketball player that plays regularly at Hoon Hay Park. And I usually do play after sunset when things get heated up during the ball game so, would appreciate if this really happened	Thanks for your feedback
78.	10460	Tiresa	Sio		Hoon Hay	support the lighting		Thanks for your feedback
79.	10455	Susana	Muamua		Hoon Hay	support the lighting	The amount of people bringing their kids down to Hoon hay park, from all over Christchurch has been amazing! We as a community strongly support the bill to have lighting at the basketball court as well as the barbeque spots as this is a great park for families to come to in which they already do	Thanks for your feedback

						for a get together and to play basketball and other sports. Family orientated, strong community support is what's behind this, for Hoon Hay park.	
80.	10446	Julie	Ausage		Hoon Hay	support the lighting  I totally support having lights at the Basketball Area for our kids. As a parent to teenage boys and primary age school boys this would be great to have for our kids in the community to have somewhere safe for them to go and spend time and play at if lights are put in place for them. Also to have all the extra features that is requested so that more of our families can enjoy being at the park even more by having things like a Barbeque area and seating areas for our families in the community and also outside our community. We think by having all these components added to our park would benefit well for our community and our families.  Thank you.	Thanks for your feedback
