25	Ross Wallace		support the U-turn ban	Owner of 336 Blenheim Road, Riccarton	Thank you for your submission.
24	Richard Cocks		do not support the U-turn ban	<p>Having worked daily from the below address (382 Blenheim Road) for 25 years now and having made this U-turn many times not to mention having passed through this intersection hundreds of times I have never seen or experienced any issues.</p> <p>In fact you actually have a far greater issue with motorists leaving the Complex at 388-394 Blenheim Rd and trying to make a right hand turn through the Central Island. This surely is illegal so why is it not signed accordingly? It causes no end of confusion for motorists using these breaks in the island when travelling south</p>	Thank you for your submission. The right hand turn isn't illegal but it is not recommended as indicated by the left turning arrow painted on the road before the intersection.
23	Grant Thiele		support the U-turn ban		Thank you for your submission.

22	Jesse Manson		support the U-turn ban	Very dangerous intersection to do u turns on	Thank you for your submission.
21	Josh Bamber		support the U-turn ban	It is dangerous as those u-turning are turning into a green light putting those drivers at risk	Thank you for your submission.
20	Siddhant Pujara		support the U-turn ban		Thank you for your submission.
19	Emily Hands		support the U-turn ban	It will make the intersection safer	Thank you for your submission.
18	Aaron Cornwall		support the U-turn ban	This a major problem at most arrow controlled intersections, please look into banning at other arrow controlled intersections as it really slows the traffic flow and causes far too many near misses	Thank you for your submission.
17	Jamie Herrick		support the U-turn ban	I work off Annex Rd, the area to U turn is too small. On multiple occasions I have witnessed people trying to do three point turns to get around	Thank you for your submission.

16	Matthew Vannoort		support the U-turn ban	U-turns are dangerous manoeuvres and should not be allowed at intersections. Separate U-turn bays should be provided - if necessary. The corner is too tight to do this easily, and can cause a crash if completed while a car is turning left from Annex.	Thank you for your submission.
15	Luke Chandler		support the U-turn ban	This is a fantastic idea	Thank you for your submission.
14	None None	Blue Star Holdings Ltd	support the U-turn ban		Thank you for your submission.
13	Margaret Wheeler		support the U-turn ban		Thank you for your submission.
12	Gary Genet		support the U-turn ban		Thank you for your submission.
11	Toni Harrison		support the U-turn ban	Brilliant idea - very dangerous corner	Thank you for your submission.
10	Fiona Penney		support the U-turn ban		Thank you for your submission.

9	John Kelly		support the U-turn ban		Thank you for your submission.
8	Wayne & Alison Hawker		support the U-turn ban	No	Thank you for your submission.
7	Paul Jansen		support the U-turn ban	People doing u-turns builds too much congestion of traffic trying to turn right onto Annex Road. 100% agree with no u-turns on this intersection	Thank you for your submission.
6	Craig Woolhouse		support the U-turn ban		Thank you for your submission.
5	Mike & Jo Black		support the U-turn ban	Great idea!	Thank you for your submission.
4	None None	HPAC Energy Centre	support the U-turn ban	We support the U-turn ban as it will make turning left into Blenheim Road from Annex Road much safer on a green arrow. There has been so many accidents at this intersection due to not seeing or expecting a u-turning driver	Thank you for your submission.

3	Fiona Bennetts		support the U-turn ban	I fully support banning U-turns in this location. Please ensure signage is clear (may need more than one sign) and sign placement doesn't obstruct sight lines. Thanks	Thank you for your submission.
2	Graham Curry		support the U-turn ban	I support the U-turn ban as doing a u-turn from Blenheim road creates more congestion for vehicles turning left from Anex road because they have to give way to cars coming from the right as well as cars doing a u-turn. It is much safer to do a u-turn down anex road.	Thank you for your submission.
1	Rose Nutira		support the U-turn ban	Accident(s) waiting to happen, as some drivers have little to no regard for fellow road users	Thank you for your submission.
