Friends of the
Christchurch Botanic Gardens

This leaflet celebrates the many memorial trees within the Christchurch Botanic Gardens. In developing this leaflet we recognise those who worked tirelessly to develop these Gardens and its plant collections over many decades, including The Rotary Club members raising money for key projects.

The Botanic Gardens started with the planting of an oak to celebrate a Royal wedding in 1863. We are honoured and delighted to have had many members of the British Royal Family and their representatives continue to plant trees on their visits. Together with other notable national and international visitors, this has helped raise the Gardens' profile around the world.

The Friends of the Christchurch Botanic Garden developed and sponsored this leaflet for your enjoyment, allowing you to learn more about this wonderful garden, its history and plant collection. We hope you will enjoy your journey around this unique collection of trees.

To continue the invaluable support the Friends give to the Gardens please consider supporting us with a donation through the Friends website at the Kiosk or Gardens' Visitor Centre.

Why not sign up as a Friend of Christchurch Botanic Gardens which enables you to stay in touch with us, learn about what we do, and make more friends.

Enjoy the gardens.

Wolfgang
