

No fixed abode and support services

A free directory of Christchurch
accommodation and services for
people without a safe, secure home

Sixth edition revised January 2019

Introduction

This is the Sixth edition (revised) of No Fixed Abode directory to be published. The first directory was produced in November 2005 in response to a task group on homelessness recommending that a directory of accommodation and support services be compiled. The task group included staff from the Christchurch City Mission, the Methodist Mission Christchurch, the Salvation Army, Street 10 and Christchurch City Council.

The directory was created as a response to issues and needs experienced by those of 'no fixed abode' in Christchurch. Being homeless is broadly defined as having inadequate access to safe and secure housing. There is a long continuum of those who fit into this broad definition. They include those who live on the streets, in cars or empty buildings; those who move frequently from one temporary shelter to another (including emergency accommodation, women's refuges and those staying with family or friends); those living in boarding houses on a medium to long-term basis; and those who live in substandard housing. A lack of adequate affordable housing is known to damage health and cause complications in many areas of life for individuals and families and can have negative effects on the growth and development of children. Unstable housing has significant implications for the broader community service sector.

The No Fixed Abode directory collates a wide range of information on accommodation and related services for those experiencing difficulties securing adequate housing in Christchurch. This reflects the complex causes of homelessness, in particular poverty, mental health issues, drug, alcohol and gambling issues, and leaving prison or institutional care.

Organisations are listed alphabetically. Where an age range or gender has not been specified, the organisation caters to all ages and/or all genders. Where a referral source has not been specified, access to the agency can be made both in person (self referral) and by an agency (agency referral). The index at the front of the directory is grouped under headings (e.g. Accommodation - Emergency) in which all entries are listed.

While significant efforts have been made to collect full and accurate information, there will inevitably be omissions or inaccuracies. No responsibility is accepted for missing entries or incorrect details. The right to include, edit and limit the content of all entries in this directory is reserved by the Christchurch City Council. Your input to add or update entries would be appreciated - please do so through nofixedabode@ccc.govt.nz and CINCH, the online Community Information Service. The directory can be also accessed as a PDF through CINCH. library. christchurch.org.nz/cinch

We trust that this free directory supports those without a safe, secure and affordable home to access to the impressive range of services in the Christchurch area.

Website: www.addictionshelp.org.nz www.alcoholdrughelp.org.nz
Information: Helpline available 24 hours a day, seven days a week offering free confidential information, insight and support on issues arising from drinking or other drug use. In addition, there is a dedicated Maori Line: 0800 787 798, and Pasifika Line: 0800 787 799, and the Methamphetamine Intervention service is accessible through the main 0800 number. We offer a range of options: information and resources; brief interventions for alcohol and other drug problems; a call-back service where the helpline calls the client at a pre-arranged time to assist them to reach their goals, and relapse prevention for those who have made the change. We work with concerned others and support families/whanau to stay well when their loved ones are struggling with an alcohol or other drug problem. Open 24 hours a day, seven days a week, 365 days a year.
