This a fabulous group of buildings of historical significance to Christchurch and to all who live in Canterbury. Christchurch city is so beautiful the rebuild is a credit to all and the Art Centre is an integral part of this. Surely the council must realise this. The Arts Centre should be funded.

This heritage area - the site of the first state secondary schools, Christchurch Boys' and Girls' High Schools, and then the first site of Canterbury College, now the University of Canterbury, in the fledgling city of Christchurch, is why the Christchurch Arts Centre should be supported by the Christchurch City Council, representing the people of Christchurch, and kept as a working organisation, keeping the museum status of the 21 buildings that have NZ Historic Places Category One designation and having them open for local arts businesses to function in this wonderfully historic setting.

Have you been there lately? It such a special place! A huge part of Christchurch history. A beautiful place for people to congregate/ meet up/ contemplate. Lots of tourists and locals enjoying the architecture and shops. So close to the beautiful botanic gardens that it is almost an extension. Not many historic buildings left in the city anymore. Important that it keeps it's funding.

The Arts Centre is an important part of the uniqueness of Christchurch. I take all my visitors there and I am a regular user of the cinema, the restaurants and cafes and the market. I wish there was a solution to repair the Dux Delux. Yes money is tight but keeping the Arts Centre going is a long term investment in the future of Christchurch as a destination.

the arts centre is so important as a central hub to chch - if it is gone the city will loose appeal and interest. The buildings are amazing and have such valuable history, and this gives character and context to the city. The place gives venues for the arts, for artists and artist groups and there are so many studies that show the value of this in a city. The Arts centre means so much to me, having grown up in chch, - it has been a real central hub with many places and events to go to for many years. It would be a real missed opportunity for the future appeal of our city, if you were to let it go.

This is an iconic Christchurch building loved by locals and tourists. The council should be contributing to this funding. I spend many hours at the centre visiting cafes and shops and notice how many tourists are there taking photos. They take the tram down and stop specifically for the Arts Centre and the gardens. Once the museum reopens this foot traffic will increase. How amazing it would be to enhance Worcester Street and make this area the jewel in the crown for Christchurch.

The Arts Centre is incredibly important to this city. It's unique to Christchurch and full of history. Christchurch central is already becoming a ghost town. Please don't allow this place to close and become another reason for people not to go into town or visitors to come to Christchurch. It's one of the few places that has family friendly activities too. Christchurch wouldn't be Christchurch without this place.

The Arts Centre speaks of Christchurch, it is without doubt one of the primary anchors for the city. I am in the city a lot. Countless times tourists have come up to me asking where is the Arts Centre? It is magnificent series of architecture and needs to be resourced logically as why wouldn't you? It is the Jewell in the Crown. There is the journey over the bridge down Worcester street, or walking past the river, past the Art Gallery, down to the Arts Centre, leading to the Museum and then, finally the Botanical Gardens. You have an opportunity to make this whole area, a fantastic tribute to this city, there has to be a solid dedication from the council to do this, as to neglect to do so, future generations would be questioning the rationale behind the reasons not to. You have something that should be cherished and restored fully to its original condition, so future generations who live here can experience it and be grateful that the council we have now, made the right sorts of decisions when it came to preserving our historical architecture that remains, especially one of the most crucial parts of the city, the Arts Centre. Also why don't you establish a market like the one in Nelson in the Arts Centre? (The market there at present is somewhat lacking) There are plenty of opportunities to get the general public to this area, along with the Art Gallery the Museum, the gardens. You must fund the Arts Centre, it just makes sense, it has to be preserved.

The Arts Centre is a critical and significant place historically, socially and economically for the city of Christchurch. Whilst it is very expensive to repair it must happen, it can happen slowly and steadily but it must happen. The fact that the management have been so slack in getting a high revenue hospitality establishment such as the reinstatement of The Dux is outrageous. The people of CHC want it, it's seen as an institution and could have contributed significantly to the income stream to make the Arts Centre sustainability and viable. Whoever is in charge of these decision needs to be removed and replaced by a person or people that have commercial acumen.

The Arts & Culture in Chch at the Arts Centre need to be supported in order to provide alternative options of entertainment for people to enjoy. Not all rate-payers in Chch and the surrounding areas are sports enthusiasts. The Arts Centre has historically provided a locale where art, theatre, music and cultural activities are celebrated; this needs to be supported by Council to maintain an equity in funding. The Arts Centre is also a big draw in terms of Tourism. Visitors appreciate the uniqueness/history of the Arts Centre and this won't continue to be a draw to visitors if the lack of funding means the centre will decline in opportunities offered and/or general appeal to the public to visit. Loss of revenue will also have an impact on employment for those people who are working in the Arts. The Arts Centre provides a balance in Christchurch to our community and should be supported by it's Council.

In a world full of digital content, it is refreshing to know that art centres and galleries still exist to serve as a platform for artists to showcase their works and to promote cultural awareness, and CHC doesn't have a lot of this kind of institution. Please CHC City Council give the thriving The Arts Centre a chance.

Christchurch needs a vibrant and accessible Arts Centre for the cultural, artistic and spiritual life of the city. Lunchtime concerts at the Great Hall, films, performance festivals, places to relax and recreate with family and friends, boutique shopping and galleries all in important heritage surroundings make valuable contributions to the life of Christchurch city. It shortsighted to cut funding to such essential and enriching activities.

The Christchurch City Council needs to fund The Arts Centre as a part of their Long Term Plan. Being one of the few refurbished historic sites, The Arts Centre is a proud nod to Christchurch's heritage architecture and requires funding to maintain its aesthetic and functional needs. It is one of the major landmarks for tourists visiting Christchurch and helps define itself against the other major New Zealand cities. The numerous events, markets, performances and exhibitions that occur there all add to the lively feel of the CBD. Without funding, I fear that any amount of scaling down of these events will eventually kill off the community atmosphere and limit the options of city dwellers and tourists alike. One can only go to Riverside Market so many times. I acknowledge that the council only has limited funding and therefore I would like to propose that Te Kaha have some funding reallocated to the Arts Centre. Te Kaha, while an ambitious and potentially lucrative project, will require so much more infrastructure and service changes around the CBD that for it to be effective, its 2027 completion should be dragged out in co-ordination with transport plans, better road infrastructure and more substantial accomodation options.

Please continue to fund the Arts Centre. It is one of our few remaining historic precincts. It is accessible and relatable to everyone. The arts should not have to compete for funding with sport. The arts broaden minds, feed the soul and promote reflection and diversity for all ages and abilities. The Art Centre is looking stunning (except for our poor Dux Delux - please let Richard Sinke do his thing). It is clearly well managed and well cared for. Located close to public transport and the museum and botanic gardens it is an uplifting destination where we can gather, share, and entertain guests and each other. Privatising or mothballing would be yet another loss to those of us who will always mourn our beautiful old buildings. The history embodied in the Arts Centre adds substance to our bright buzzy new central city.

The Arts Centre is a hub for so many different arts programmes and groups. Arts are incredibly undervalued in New Zealand, and provide a valuable form of expression and communication between groups in an increasingly diverse and divided society. CCC should prioritise funding for the Arts Centre, so that it continues to be a place for artists to practice and to show work; and to increase the attraction of Christchurch as a location for artists to practice their craft.

We have lost so many historic beautiful buildings due to the earthquakes 2011. The art centre is one of these. The weekend art markets have drWn people from all over into the cbd for unique and culturally significant opportunities to enjoy arts and craft and to purchase beautiful gifts. The food markets and artisan outlets all in one place have brought people from all over the world. The mliobs spent else where on architecture and sport arenas will not replace our colonial history.the history comes from the original build of the university if Canterbury on site. Education given to people such as Rotherford who split the atom happened here in these Gothic revival buildings. Taught by Bickerton the renowned physist brought in the late1800s from England. So much of christchurches colonial history was centered in these buildings please do not destroy rhis treasure. Much if the historical content regenerated in the cbd is now linked solely to Maori history. I'm a 6 generation cantabrian. My grandfather arrived here in 1825. These buildings represent the incredible belief that rhis place was a powerful place of learning. So sad and wrong to let it go.

It's very important to save the finding to the Art centre as the place where parents can introduce art for their children. With rising prices and financial struggles for many families, any actions towards self- finding of the Art centre will take off any chance for these families and their children to be culturally aware of the Art.

The CCC should support the Arts Center financially as this corner of Christchurch is an important collection of buildings with immense history and beautiful character. The post earthquake restoration has been impressive and made me love and admire this place even more than beforehand. I have always considered this area of the city to be the heart of Christchurch where there is something to interest everyone, so this centre needs the support of CCC and its ratepayers.

It is an important part of the city centre for not only tourism but the city's identity. From my understanding, it makes more fiscal sense to fund the arts centre so it can remain an independent entity and receive donations/grants. Otherwise, if the arts centre goes into liquidation and the council takes ownership, they can no longer take donations and grants so it will end up costing more in the long run.

To the Christchurch City Council, investing in The Arts Centre is not just about supporting culture; it's about nurturing the heart of our city. Ultimately, the Arts Centre is a hub of creativity, education, and community engagement. By funding it, you're not just supporting the arts; you're investing in the wellbeing of Christchurch as a whole. - Isabella

With the cathedral's completion uncertain, it is ever more imperative that Christchurch protect the heritage it has left. The Arts Centre and little remaining heritage Christchurch has sets our city apart from others in New Zealand - it's the most beautiful city centre to hang out and work in. When you walk past the Arts Centre any day of the week, you can also see the enormous value it has as a tourist attraction and community centre, obviously generating economic activity. The cost of retaining the Arts Centre is essential spend if we want Christchurch to be a great place to live and visit. Cut funding somewhere else, slow new projects down for example. Christchurch has lost so much heritage by way of earthquakes, don't destroy even more through dumb decisions.

The Arts Centre keeps the city's culture alive with events and exhibitions that everyone can enjoy. It's a place where people of all ages and backgrounds can meet, learn, and have fun. Tourists love visiting the Arts Centre, which means more money spent in local businesses. It's an important part of Christchurch's history and needs funding to keep it in good shape for the future. By funding the Arts Centre, we're helping local artists and creatives thrive. With council support, we can keep ticket prices low or even free, so everyone can join in. Investing in the Arts Centre helps make our city center more vibrant and attractive to residents and visitors alike.

I would like to make a formal submission on the Draft Long Term Plan 2024 -2034 (the LTP). My submission is in strong support of the Programme – Community Parks Sports Field Development (ID 61875, with an \$85.6m investment set out on page 188 of the Plan) and I support prioritising this work to develop positive community, recreational and performance sport outcomes within our city. My support for this programme is based on its goal of establishing up to 10 floodlit artificial playing turfs around the city, supporting by improved grass facilities. The establishment of quality sports field network is of the utmost importance. It is a critical part of any highly liveable 21st century city. Christchurch is at serious risk of falling well behind its neighbouring council, and its main city rivals for commercial and visitor investment, and growth. We note that \$85.6m investment in the LTP is largely phased towards the backend of the 10-year period. This means that it is likely that next one to two generations of developing footballers are going to miss out on use of these through their formative years. We urge the Council to reconsider the investment timeframe and bring forward most of the investment.

Kia ora, I heartily agree that the Christchurch Arts Centre should get funding. I had the wonderful opportunity to spend time at the Arts Centre when I was given a 3-month residency in 2022. It enabled me to write a children's book on Sir Ernest Rutherford, one of the world's greatest scientists, and it has since been published (by Upstart Press). I was able to visit Rutherford's Den, wander the grounds where he attended university, and have valuable time just writing. This opportunity has also been given to other talented authors, artists, and actors. It makes a huge difference to creatives' productivity and makes them feel valued when given a residency at the Arts Centre. It is also a valuable resource for the Christchurch locals to see and hear artists from all over New Zealand in such a creative environment. Please give them the funding they need to keep the Arts Centre going.

Over the last 5 years since I've moved to Christchurch I've seen the arts centre spring into the unique community hub that it is today. Whether it's a simple coffee at Bunsen, a visit to the classics museum, a stroll through the Victorian-era patio, or a live performance on the green, I constantly find myself being inspired. It's also fossilised what Christchurch may have been prior to the earthquakes, a place to escape the modernity of cashel street. Cutting funding to arts centre would mean displacing cultural experiences that are yearned for in modern suburbia, and therefore stripping part of the city's identity.

A substantial part of cultural life in Ōtautahi Christchurch has for decades depended on the facilities and services provided by the Arts Centre. During my life I have attended countless performances, films and exhibitions there, and as an artist it has been a place where I have worked in so many different contexts during the past 30 years. There is no other local site that draws in such creative diversity, thus providing unique opportunities for bothr artists and audiences. The Arts Centre is therefore absolutely crucial to the cultural life of the city and In order to continue to thrive, its management must remain in safe hands requiring Christchurch City Council support. If this support is abandoned as planned, then the infrastructure and services The Arts Centre provides for the city will fail. To effectively destroy this infrastructure would be a profoundly regressive decision. How can it make fiscal and cultural sense to defund something that is so important and yet, in the grand scheme of things, only a modest expense? To proceed with this poorly considered and short-sighted plan to defund the Arts Centre would be a devastating, soul-deflating and ultimately fiscally stupid move for the cultural life of this city.

Better to save and fund the Art Centre, after all that beautiful stone work etc and used by many people. Don't put any of MY MONEY INTO CATHEDRAL, not used as much as Art Centre. what happened to the three designs we voted on? Could have been finished now. Knock it down now before bleeds more money, so the rest of the Square can get on with their lives and get some colour back there

It would be a major management failure on behalf of the council to lose the arts centre. It's a wonderful, diverse space that has given me, my family and friends joy for many years. A creative hub, tourist attraction and evidence of the growing cultural landscape of Christchurch. We can't be known only as a city that hosts sporting events. It's too one dimensional. Find the funding - surely you haven't applied my significant rates increase to senior staff salaries instead? Thankyou for your attention.

It's of historic importance, we must keep it. It's utilised by so many. Young and old. I'm sitting on a bench today and soaking up the atmosphere of tourists taking photos, children playing activities on school hols and for me it's a moment of peace and serenity during a busy work day where I can enjoy my lunch. Please save the arts centre. Christchurch has lost so much of its history in recent years, we can't lose this too!

The Arts Centre is a tourism asset: the museum, the gardens and the arts centre need to be considered as a synergistic group. Arguably that synergistic group includes the art gallery. As we saw, when we lost it after our earthquakes, tourism is very important to Christchurch and wider Canterbury. The community also consider these three assets (arts centre, museum and gardens) as an important community asset. Finally, all three of these assets are of historical significance. So important from a tourism, community and historical perspective. The funding for the Arts Centre is primarily dependent on grants from organisations other than CCC and rental income. However, if the CCC funding stops then other, larger funding may fall away. It is important that the CCC adopts a more multi-generational perspective to their planning and funding decisions. As a general comment, if you have to cut funding then you need to give substantial (multi year) notice so that organisations have a genuine opportunity to find alternative sources. In the case of the arts centre they have been very active in finding alternative funding sources. To fail to acknowledge that, and to to give such short notice, is inappropriate. Finally, a) do you have an under-performing CEO at the arts centre. Far from it: he has a proven track record of running organisations profitably (such as the court theatre) where the rest of the nation has struggled and he dealt with the rebuilt post EQs. b) do you have an under-performing Char? Far from it: you have the CFO of Naylor Love who is also a fellow of CAANZ. Bottom line: This asset is important from a tourism, community and historical perspective. It has a synergistic relationship with the gardens and the museum (and possibly the arts centre). You have a very competent CEO and Chair. The CCC funding is important to enable the much more substantial "other" funding. If that "other" funding falls away, the arts centre will default. CCC needs to take a multi-generational approach to funding community/tourism/historical assets. From a personal perspective, I consider the combination of the arts centre, the museum and the garden far more important than the Cathedral (which the Anglican Church knowingly under- insured). I am a former director and chair of a CCHL subsidiary. I write this with full knowledge of the funding issues that both CCHL and CCC face.

Why should the Christchurch City Council continue to fund The Arts Centre? It beggars belief that this question should even be asked, let alone be in urgent need of answering. The Arts Centre is an architectural gift from the past to all who live and visit here now. As current custodians of the gift we owe it to those who come after us to preserve what was given us and what we have enjoyed for so long. The Arts Centre is a stake in the ground symbolising that Christchurch is a city that cares about the Arts, and acknowledges that they are an essential component of a healthy, happy and stimulating society. The Arts Centre offers a hub and a haven for talents and skills that help colour Christchurch and mark it as a city that encourages creative thought, individuality of expression and uncommon achievement. Remove that haven, and the energy and inspiration that comes from the meeting of minds will quickly dissipate. The Arts Centre is also a social hub, where people can interact with each other in countless ways and provide an antidote to the isolating effects of a world increasingly dependant on technology for communication. The Arts Centre needs to be a priority in the City Council's financial planning. It must not fall victim to short term frugality. It is too valuable an asset to squander.

I am writing to express my deep concern over the recent decision to withdraw funding from the Christchurch Arts Centre, a decision that threatens the future of this historic and vital cultural institution. The Arts Centre is not only a cornerstone of the city's cultural identity, but it also plays a crucial role in the community by fostering creativity, education, and tourism. Its unique blend of artistic, educational, and historic offerings enriches the lives of residents and attracts visitors from around the world, contributing significantly to the local economy. I urge you to reconsider the withdrawal of funding. Supporting the Arts Centre is an investment in the cultural wealth and economic vitality of Christchurch. By sustaining this iconic venue, we preserve a cherished heritage and continue to inspire both current and future generations. Thank you for considering this appeal to ensure the Arts Centre remains a vibrant part of Christchurch's cultural landscape.

Kia ora Christchurch council members, I am adding my voice to the call for reconsideration of the future funding of the Arts Centre. I am a resident of the Far North, but I have family who work and attend school in Chch and when I visit them the Arts Centre is always an important part of our time together. On every visit to your fair city I have gone to the Arts Centre to attend art exhibits, listen to music, shop for unique and thoughtful items, enjoy delicious food, and I learn about the history of Christchurch and the upheaval and resilience of its architecture and residents due to the earthquake. Although I live far away, I follow the news of events and happenings there and I plan my trips around special events taking place. I know there are many demands on the council's funding, but the arts give inspiration and hope and joy to residents and visitors and immeasurably add to quality of life in a city. Artists need a place to gather and share and create and we the public need a place to soak it all in. Please please help the Arts Centre retain their funding and keep an iconic Christchurch destination inspiring us New Zealanders across the motu.
 Respectfully, Nicole Turner

It's a focus for the community and an iconic heritage building . It's a focal point for the town centre with tourists using this as a starting point within the town. After all the money that has been put into the renovation post earthquake , stopping funding is an insult to the people of Christchurch who have lived within the city during this time. The funds for this should have been ringfenced before the council decided to co-fund the cathedral rebuild or the sports stadium. It is also high time that the people of the districts that surround Christchurch contribute to the facilities they enjoy within the city

Our family have felt passionately about the Arts Centre for the last 40 years. We regularly took our children to the market, and supported it in every way we could, and still do. We would be devastated to lose any part of it. Please continue to fund it for the future generations of Christchurch to enjoy it as much as we have 🙏

Commenting as an artist, arts manager and an arts academic, I am of the opinion that the Arts Centre is an important, and now world beating hub for the arts in Ōtautahi. It has been revived to a level that in my opinion surpasses its pre-earthquake standing in its deeply relevant, much valued and inclusive arts programme. The Arts Centre needs to be supported by funding to allow it to continue its crucial work, continue its positive momentum, and maintain and further develop its position as a shining beacon for the arts that makes the city a better place.

I spent a lot of my time as a young man in and around the arts centre. I was a student at School of Fine Arts but I rented a studio there. I had exhibitions there. I saw movies there, live music, I played live there with my band the AXEMEN, I have eaten there, had fun there, it is the life blood of the city of Christchurch. Fund it or regret that decision eternally.

The withdrawal of funding support is disastrous. It will limit many community arts activities, shows disdain for the mental and spiritual health and wellbeing of the city, demeaning this jewel of tourism. Please care for the ratepayers, the youngsters, families and older people who regularly access it. Earthquake repairs are still to be finished - please take some pride in this centre of entertainment, activity and pleasure.

The current management structure has clearly failed, and the trustees have made terrible decisions adverse to the interests of the arts centre, causing the decline of a once incredibly vibrant and cherished part of Christchurch. It could be that again with proper funding and a revised operating model that has competent governance and management that understand how such a precinct should operate, and make headway to becoming commercially viable in its own right. Funding and management changes now will enable revitalisation of this marvellous precinct, adding significant value to the city and preserving the legacy of the arts centre as a unique space for Christchurch residents and visitors to enjoy.

The art centre is one of few truly unique building complexes in New Zealand. A repository of history and craftsmanship that is far more impressive than the cathedral and is secular too. It has demonstrated a versatility of uses that would continue for another hundred years if given the chance. I love this place and I want to see it given the kind of money we are investing in sport – a stadium will have far less uses in the future. And it probably won't last as long either.

I am a resident of Christchurch. I am gutted that funding for the Arts Centre is on the line. With the world being such a difficult place to live in right now, we need to give artists a platform and a space for being able to help us collectively process the human experience. Artists are so important for progressing us forward as society. Every person is influenced by art in some form in their life. The Arts Centre is the heart of Arts in Chch and it will be a massive loss to present and future generations if their future is in doubt. Please fund the Arts Centre for our community's benefit. I am a rate payer and would be happy to see a few extra dollars on my rates for this.

The Arts Centre is so important to our city and it's people. It is a place I have spent my whole life visiting, from seeing movies with my mum at the cinema when I was 7 and eating delicious food from the food trucks beforehand, to frequenting the beautiful stores that bring life to the buildings now. I am so frustrated that this is where the council has decided to cut corners... It's always the arts that go first; never the multimillion/billion dollar sports facilities. From a Christchurch artist that hopes to share the beauty and history of the Arts Centre with my son as he grows, please do not let our city lose something this important. Please don't let not only the arts community, but also the wider community down like this again.

I wholeheartedly support continued funding for The Arts Centre. The Arts Centre is an iconic part of the Christchurch landscape, history, culture and the arts. It's a gathering place, a place for artists and musicians, a place to eat out, discover new arts and crafts, a museum, accommodation, cinema, a place for people to visit...there's just so much to enjoy in the amazing historic buildings and site. It makes no sense for the CCC to not support The Arts Centre on an ongoing basis.

Please save the Arts Centre, the absolute heart and soul of our city.. It holds an abundance of cherished memories for me; dating back to when my family first arrived in New Zealand in 1991. My mum worked and sold T-shirts at the market during the weekends, I played my first concert there on the lawn - followed by many more; from playing in the stairwell; the boulevard bakehouse, to performing at the great hall, and at Annies' wine bar while my mum had her art exhibition. The Arts Centre has been a hub where friendships flourished, a must-visit spot for every guest from abroad, showcasing the vibrant tapestry of our city with its bustling artists, captivating performances, and stunning architecture nestled close to Hagley Park, our art gallery, and museum. Its loss would be immeasurable, as it embodies the very essence of our city's spirit and vitality.

These buildings are the heart of Christchurch, and have so much rich history and necessity. Since I can remember, The Arts Centre has been a place of belonging for me and gave me an opportunity to express myself, not only as an artist, but as a child learning about the buildings and history itself. Please continue to fund this site and bring back business into these beautiful buildings to continue to make new history for Christchurch!

How could you even contemplate not continuing to help fund the Art Centre building restoration. These historic buildings along with the Museum and Christ College form the nucleus of the blue stone historic part of Christchurch. The Cathedral is not the centers of the city and neither are the 2 new sporting facilities. Priority should be to restore the Art Centre. It's already been 13 years since the earthquakes that did the damage. Come on Mayor and Councillors - get this project finished and add to our Cities heritage and beauty.

The Arts Centre is a historical and beautiful part of Christchurch. CCC should fund the arts centre. As a rate payer I would prefer my rates went towards this than to a sports stadium i will never attend. Sadly the arts centre has post earthquake been under utilised as the newer places like riverside market developed. The CCC should help fund it and help it to come back to life - pre earthquake the dux de lux , markets, shows, cinema and many unique shops within the arts centre were alive and a huge attraction. The arts centre and the musuem have beautiful architecture and are in the beautiful part of the city with the botanical gardens over the road. This should be enjoyed as the treasure that it is and funded so it can be enjoyed for generations to come. The arts centre was once the university and it has so much historical value and beauty that could never be recreated, compared to the newer modern developments. Christchurch was always beautiful because of its old world charm, and the arts centre is a heritage landmark that needs to be saved to be enjoyed by locals and tourists alike.

The Art holds amazing memories for many. Since my teens now in my 50's I had the opportunity to enjoy so many drama workshops, lunchtime concerts, art exhibitions, theater, weekend markets during quick nursing breaks. Student days spent at the Dux even though separate was the place to be. Friends even recently celebrating their wedding at the Great Hall. It's a place that international visitors flock too. Court yard entertainment the rich history of Ernest Rutherford. So much more...such a shame I suspect you have over spent somewhere else.

The Christchurch earthquakes changed so much of this city, and took a certain amount of its flavour and character with it, but the Arts centre has remained standing as a hub of arts and culture in a city that thrives on its reputation as a place of beauty and culture. To lose the artist hub may encourage those creative skilled people whose diversity make our city the cultured centre that it is to seek other communities where such hubs thrive.

The Arts Centre is a major attraction in Christchurch. It's a vital gathering space for our diverse communities to come together and share ideas. It offers something for everyone and is a major heritage site for Christchurch, too. I don't want to see it full of 2 dollar shops and run down because the current tenants aren't able to stay. We also can't afford to lose important venue and exhibition space either if we want to foster a diverse community. Also, what impressions do we want to leave for tourists without it? If we want to be a progressive city that is not the same as everywhere else we need to support our artists and communities and offer space where we can come together. Aside It's the Hogwarts of the Southern Hemisphere and it's only just gotten back to its full glory. Why would you want all the hard work and love that went into its restoration to go to waste, that would be a waste of money.

Dear Christchurch City Council, I am writing to add my voice to the calls to save Christchurch's iconic Arts Centre. As a professional creative based in Wellington, I have seen first hand how councils can make or break a city's art scene with wise or unwise funding decisions. Although I love my city, the council has dropped the ball in terms of supporting the Wellington Arts scene. The mismanagement of the former Cuba Street Carnival, as well as the decision to open Manner Street to traffic, are two examples of this but there are many others. Distressingly, the council continues to trade upon its local arts scene - while doing virtually nothing to support it. This is relevant to Christchurch, because the Arts Centre is a unique location. The fact that it is housed in the former Canterbury University buildings shows that Christchurch - unlike other cities such as Wellington - prizes creativity beyond merely paying it lip service. The mana and beauty of the location, and its long tradition of being a centre for learning and the pursuit of creative excellence, makes Christchurch a national example for other cities of how to actively support the Arts. I am studying at Whitecliffe College as part of their 2024 Postgraduate Diploma in Creative Therapies cohort. As part of this, I regularly attend weekend intensives at the Christchurch Arts Centre. On both a professional and personal level, the honour of being able to study something I care about so deeply is intensified by doing it in such a special and historical place. I have an appreciation and respect for Christchurch directly as a result of seeing the space it has made for its art scene and the vibrancy of the same - Christchurch is a city the rest of the country could learn from in so many ways. Christchurch Arts Centre is the intersection where the richness of its history directly reaches into the future, as it provides hallowed and special ground for the training of creative professionals determined to use their powers for good. Please, do not make the same mistakes that Wellington City Council has and continues to make in terms of safeguarding what makes it iconic and unique. You have an opportunity to continue being a city council that actually DOES care about its local arts scene, rather than just talking about it and skimming the profits. The Arts Centre shows that Christchurch knows how to truly integrate and support an arts scene with the local community in a way that inspires and informs the future, while showcasing its rich history. Please make the wise decision, and keep the Arts Centre just as it is - and Christchurch City Council making good decisions. Yours in hope, Penelope Wilson

Anything else about the LTP24-34 - comments

It's finally hitting its stride post-quake and home to some fantastic, quality, local businesses with longevity. It connects the city centre to the Botanic gardens (and the museum). It's one of the only gothic architecture structures in Christchurch that's open and for public use.

It's an amazing community space. Would be an incredible loss to the community to see this space not utilised to its fullest potential. Creative spaces like this bring life to a city and are incredibly important. Please do all you can to keep this running.
