## Section 7: Fees

Applicable fees and charges are as specified on the Council's website page [ccc.govt.nz/transport/legal-road/](http://ccc.govt.nz/transport/legal-road/)  
Rental fee: \$53/m<sup>2</sup> per month (minimum \$210 per month).

### Use of parking areas and special loading zones:

Parking meter \$460 per month  
Time Limit Restriction \$215 per month  
Minimum Parking Fee \$30.60 per day (if less than one month).

### Payment

1. All invoices are due and must be paid in full by the 20th of the month following the month of invoice. If any invoice or invoices remain unpaid after the due date, all invoices, whether due for payment or not, will be deemed to be overdue and will become payable on demand.
2. We may apportion payments to an outstanding account if we see fit.
3. If you (the Applicant) fail to pay the invoices by the due date then:
  - a) We may charge interest, payable from the date the payment became due. This will be calculated under (or on a basis that ensures it does not exceed interest calculated under) Schedule 2 of the Interest on Money Claims Act 2016; and
  - b) You (the Applicant) will have to pay all our collection costs and expenses incurred in the recovery or attempted recovery of your overdue amounts. Our costs will be calculated from the time that we refer the unpaid invoice to our collection agent. These expenses include cheque dishonor fees, legal costs (on a solicitor/client basis) and collection agent fees.
4. Any variation to an invoice must be approved by us in writing before payment of the invoice is due. You (the Applicant) will need to promptly pay any part of the invoice which is not in dispute, as per the above payment terms.
5. We may offset any amount we owe you (the Applicant) against any money owed, or that may become owed by you. This applies to this agreement or any other agreement between us. You (the Applicant) waive any right to offset any amount that is owed, or may become owed to you. This clause overrides any other document or agreement that may state otherwise.
